EDUCATION

- **Indian Institute of Information Technology, Lucknow**
  Bachelors of Technology in Computer Science; CGPA: 8.41

  Lucknow, UP
  Dec. 2020 – Present

- **FIITJEE**
  Senior Secondary School; Percentage: 95.4

  Vijayawada, Andhra Pradesh
  Jun. 2018 – May. 2020

EXPERIENCE

Healohub⬀

Remote Internship

SDE Intern

01.10.2021 - 15.12.2021

- **AWS**: Since I was the only Backend web developer in the company, I had to deploy the changes made in the website on my own. I used EC2 instance and S3 bucket of AWS while working here.

- **Others**: I updated many features like adding a voice bot, uploading articles by admin, viewing profiles of users and doctors from admin portal, query page etc.

Open Source Contribution

Oppia

My Pull Requests⬀

- **Contribution**: I had merged 8 of my PRs at Oppia. So, the Oppia org made me a collaborator to their repository and I was the member of their Data handling team aka Backend team.

- **Work I did**: I wrote unit tests, backend validations, type annotations, used Apache Beam jobs and mentored new contributors, etc.

PROJECTS

- **Faculty Recruitment Portal**
  A website, which is actively being used by our college for the recruitment of faculty.
  - **Tech stack and Links**: Django - Python web framework   Website⬀ Code⬀

- **IIITL Events.**
  https://iiitlevents.herokuapp.com⬀
  - **Aim of this project**: A website to let all the students studying in our college know about the events preventing them from missing any of them. I dockerised the application and deployed in AWS with Nginx web server ⬀
  - **Code Links**: Client code⬀   Server code⬀ Docker Repositories⬀

ROLES AND ACHIEVEMENTS

- **MLH Fellowship Graduate' 22**⬀
  I have got selected into MLH prep fellowship program after clearing application round and 2 interview rounds.

- **Lead Organiser of HackOFiesta v4 and Technical Lead of HOFv3.0**
  I managed various duties from making the website⬀ *from scratch to helping others during the hackathon.*

- **Member of Axios(Technical club) and WCARL team**⬀
  I had been a part of this Wireless Communication and Analytics Research Lab and conducted many sessions in our college.

- **Corporate Relations Executive of EQUINOX**
  I connected with many people to request sponsorship for our college Techno-Cultural fest.

- **Coding skills**
  4 star at Hackerank⬀ *and solved 100+ problems in Leetcode*⬀ *and GFG platforms.*

PROGRAMMING SKILLS

- **Languages**: Javascript, Python, C++, NodeJS

- **Technologies**: Node.js, Django, Express, React, MongoDB, Git and GitHub, Docker, AWS, VSCode
